PARTNERSHIP**

RIVEREDGE
RECOVERY GROUP

WHO WE ARE

Riveredge Recovery Group is a boutique claims recovery firm providing class action dedicated to helping businesses recover maximum possible payouts from commercial class action settlements, government refunds, and anti-trust lawsuits.

Riveredge works closely with claimants to determine eligibility, identify requisite business records, prepare and file settlement claims and ultimately secure a financial recovery. Throughout the settlement process, our clients receive case updates, notifications, and access to our specialized support services.

STRATEGIC PARTNERSHIPS

Riveredge Recovery Group offers unique partnership opportunities for independent service organizations (ISOs) by enabling them to seamlessly assist their clientele with the filing of settlement claims through our proprietary White Labeled Claims Portal.

Your clientele have already been notified about the proposed Visa/MasterCard class action litigation and pending settlement. Perhaps many of your clients have already made inquiry with your organization and likely anticipate your guidance through a complex claims recovery process. Our partnership presents you with an opportunity to add value to your current service offerings while at the same time creating a new revenue stream through our Referring Agent Program.

WHY PARTNER WITH US?

Here are three great reasons to partner with Riveredge:

Reconnect With Your Clients

A common challenge among ISOs is the inability to reconnect with past and current clients, offering added

benefits. Presenting this service will rejuvenate your relationships while gaining your client's appreciation for your ongoing interest in their company.

Offer Real Value

This great opportunity offers your merchants an unexpected settlement payout they may be entitled to but would otherwise not have pursued on their own. You worked hard to get their business – here's a great way to reciprocate.

New Revenue Streams

Offering a great service to your clients is always top priority, but, just as important – is generating profit for your company. Partnering with Riveredge gives you ability to expand your profit margin.

WHY PARTNER WITH US?

Just as we have worked hard to make the intricate claims-filing process quick and easy for our clients, we provide your company with all the tools necessary to extend the same services to your clients.

Our unique White Labeled Claims Portal, complete with your branding and corporate information is created for you to send to your clients and enable them to sign up with our services - making the process simple and yielding results. And, while you and your clients are operating your business as usual – we process all the back-end work on their behalf. Finally, as a referring agent, you'll be entitled to a portion of any commissions received by our firm.

In short, Riveredge Recovery Group helps you to expand your business and the services you offer to your clients with no risk.
